

Education

On the cutting edge of education

Education law stands at the crossroads of pedagogy and politics. Our team reaches across disciplines to help our clients reach their goals and think ahead.

- We provide boots-on-the-ground holistic representation for large and small public school districts, colleges and universities, and education service providers to serve your legal needs.
- Our education professionals serve as thought leaders, and partner with other thought leaders, to influence educational policy and implement best practices.
- We have worked with local, state, and federal regulatory agencies, administrative tribunals, and federal courts to achieve optimal results for our clients.

A commitment to excellence in education

Our team members are not just attorneys; they are professionals deeply committed to helping clients achieve excellent outcomes for children. We include a former U.S. Secretary of Education and Governor of South Carolina, as well as teachers, professors, and trustees of higher education institutions. Our clients have an overarching mission – educating America's children. Our experience and deep commitment to this mission gives us perspective and the ability to serve our clients and help them accomplish their objectives.
