

Healthcare

Partners in the business of healthcare

Nelson Mullins' Healthcare Team provides legal representation attuned to the sensitive nature and intensity of oversight involved in healthcare transactions, claims, and regulatory matters.

- We work closely with clients to navigate the complex issues and regulatory parameters associated with various types of transactions, including joint ventures, mergers and acquisitions, financing, service line development, PHO and ACO formations.
- We guide clients on clinical trials, data security/patient privacy, electronic health information, patient care and operational issues, healthcare reimbursement, and telemedicine.
- Our litigators have represented clients in courtrooms across the United States and include attorneys experienced with matters before DOJ, CMS, FDA and state healthcare regulatory agencies.

Interdisciplinary team brings practical and business-focused solutions

Our team of 60+ healthcare attorneys and business professionals advises clients on

- Bond opinions
